DUCK TOKEN

More than a meme coin... the most charitible meme coin.

FIRSTLY

THANK YOU

FOR CONSIDERING US!

Duck token is a 100% community ran deflationary currency.. so supply continually decreases. More than a meme coin, this token runs on the strength of the strong community it is a part of. We take pride in our transparency, and when the community received the opportunity to make this 100% ours we wanted something more. We are pairing up to help the “GiveADuck” children’s cancer foundation to give people an opportunity to “give a duck” about something more than a trip to the moon. The most memeable charity token, with a 6% transaction fee (where 3% is distributed to all holders) you can find your duck tokens work for you.

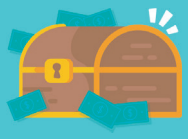
GOAL

We want to make sure we comply with all audits to be as transparent as we can be. We want to make this a token that people trust and use in a community that cares and gives back to a great cause. We want to open up market places where exclusive Duck Token merchandise can be purchased with Duck Tokens, where the 50% proceeds will be distributed to the "GiveADuck" foundation, where the remainder will goto to the marketing wallet and contests/giveaways. Giving people the opportunity to have fun with the memes involved in a fantastic community, while donating to an amazing cause.

TOKENOMICS

6% Transaction Fee

Every Duck Token includes a 6% transaction fee for every transaction.



3% to Holders

This means exactly what it sounds like... we pay you to HODL. Enjoy watching your wallet fill up with duckies while you sleep.

3% to Liquidity Pool

This is to help increase the value of the token while also ensuring when it's time for lambo, you can get lambo.

50% of Merchandising sales

When you purchase Duck Token merchandise 50% of the funds will goto the "GiveADuck" childrens cancer foundation, where the other 50% is used for marketing and giveaways.
